## WHAT IS THIN STONE?

K2's thin stone is real stone, cut to approximately 1" thick, making it light enough to be installed as an adhered veneer. It offers ease of application without losing the uncompromising beauty and durability of natural stone. It does not require special mechanical fastening or foundations. Due to its size and weight, both transportation and installation costs are less than full thickness masonry. All of K2 Stone's thin veneers are offered with matching corners.

### BENEFITS OF REAL THIN STONE

1. Uncompromising beauty
2. Unmatched by imitation
3. Does not fade
4. Safe to pressure wash
5. All natural, eco-friendly
6. Ideal for Interior and Exterior
7. No efflorescence
8. LEED and Built Green points
9. Adds value to your property
10. No Volatile Organic Compounds (VOC's)

# LANDSCAPING PRODUCTS

OCEAN PEARL DIMENSIONAL TILE

## DIMENSIONAL TILE

Available in 12"x12", 12"x24" and custom cut sizes. Our slate tile products can be applied on both interior and exterior wall or flooring surfaces. Typical application types include kitchen flooring, kitchen back splashes, bathroom flooring, bathroom showers, interior feature walls, exterior walls, patio hardscapes, pool surrounds, walkways and interior flooring. Quarried and cut within North America, our new Ocean Pearl slate tiles offer a unique luxury finish hand crafted from our signature Ocean Pearl stone.

## FLAGSTONE

Ocean Pearl and Quartzite are two different types of flagstone offered by K2 Stone. Flagstone is available in multiple thicknesses, stone types and size configurations. It can be installed in either a sand or mortar bed, depending on the application and desired appearance. Flagstone makes an excellent ground cover.

QUARTZITE FLAGSTONE

OCEAN PEARL FLAGSTONE

## INDUSTRY TERMS:

"Stand up Flagstone" - Large format flagstone often called "Select" which must be shipped standing up because pieces are often too large to lay down on a pallet without protruding past the edges. "Patio" or "Lay down" flagstone is small enough to fit on a pallet.

OCEAN PEARL COBBLES

## OCEAN PEARL COBBLES

Available in 8"x8," 6"x8" and 4"x8" dimensions, Ocean Pearl full bed cobbles can be sand-set to recreate an old world look. They are offered in two thicknesses, 2 1/2" for sand-set applications and 1" thick for mortared applications. These are among the most beautiful and durable pavers anywhere.
